International College 65 Sturminster Newton 13

The team's second game saw a visit from Sturminster Newton. The opposition were inexperienced but tried hard and played well. Many of the Sturminster players were very new to the sport and were still learning about the game.

The IC team played well and the whole team contributed significantly to the performance. From the start it was clear the IC were the stronger team and we had an overall height advantage that proved important in rebounding and scoring points close to the basket.

Despite a one sided score line the game was played in a very good spirit and it was valuable practice and a good learning experience for both teams.
