

Chilton Cantelo 4 International College 1

A hard fought game was eventually won by the opposition as tired legs and tired minds cost the International College the draw that their play had probably deserved.

Chilton Cantelo won out 4 – 1 winners over a spirited under 14 team who can be very proud of their performance in a match that was played over a longer period than they had previously encountered.

Max M equalised for the IC after good work by Jorge after the opposition had taken an early lead. Stout defending and some excellent counter-attacking play almost gave the college the lead they deserved and special mention must go to Yury who, at left back, earned praise not only from his own coaches but also the opposition's.

In the end, Chilton Cantelo's experience over sixty minutes proved the difference as they scored three goals in the last ten minutes to break the resistance that had been so resolute from the start.

The U14 team should look forward to their next match against park School, where a similar performance will surely give them a better result.
