

# Sturminster Newton v International College Sherborne School

## 39 - 37

---

As the previous two fixtures this school year have resulted in a win each for both teams this game was always going to be close. It did not disappoint but unfortunately the International college lost by two points, 39 to 37. A lot of positives can be taken from the game however as the College had chances to make up that two point deficit and with some extra practices that two point difference will be easily made up.

The senior boys can not be faulted for effort however as they never stopped and never showed one bit of tiring until the final whistle blew, but I think that's allowed. A special mention has to be made for James who scored 21 points in the game and was definitely a player who the opposition could not handle. His effort for the team was something to be very proud of. The game was very even until the third quarter when Sturminster broke away and engineered a good lead.

However in the last quarter the International College boys reduced Sturminster's eight point lead to only two points. Like the previous two games there was a very friendly atmosphere at the game, both sets of players focussing on having fun and representing their school with pride which they both did exceptionally well.

All players deserve to be mentioned for the way they played the game and represented the College. Paul , Ka Ho , Ian , Tommy , Eric , James , Jeffrey, Gene , Jack and Ben Sing - well done!

Thomas
