

International College, Sherborne School, Newell Grange, Sherborne, Dorset DT9 4EZ U.K.

Principal: Dr. Christopher Greenfield M.A. M.Ed.

September 16th 2008

Dear all,

I am delighted that the College has achieved 90% pass higher-grade rate in GCSE/IGCSE examinations in the summer of 2008. This is the highest pass rate in the College's history. The International College is extremely proud of these results, particularly in view of the fact that this was the first year that our students were examined in what we believe to be the more academically rigorous IGCSE papers in all of their science examinations.

This is a remarkable result given that more than half our candidates took the examinations after only some nine months of study. British boys and girls take two academic years to cover the same work. Not only this, but all of our students were taking the examinations in (for them) a foreign language.

Congratulations to all students and teachers concerned and also many thanks to parents, guardians and agents for their support in helping make this possible

Dr Christopher Greenfield

College Principal
